ONLINE GAME MODES

Pursuit Tag

One driver is the racer and everyone else is a cop in this timed mode. The racer must try to elude the police for as long as possible to win. To become the racer, you must bust the current racer first.

Pursuit Knockout

The last driver to finish each lap returns as a cop and must slow the progress of the remaining racers. As a cop you earn points for making contact with any of the remaining cars.

CAREER MODE

In an all-out war for the city, you and your crew must risk everything to take over rival neighborhoods one block at a time. As the police turn up the heat, the battle ultimately shifts to the canyons, where territories and reputations can be lost on every perilous curve.

CAR CLASSES

Muscle. Exotic. Tuner. Which class will you represent? Each has strengths and weaknesses. For example, Tuners dominate in the turns, while Exotics put your speedometer to the test. Choose a class then decide between an Automatic or Manual transmission to begin your quest for urban domination.

YOUR CREW

Fortunately, you don't have to do all the work on your own. You've got a crew to back you up. In most events, you can take wingmen with you and use them to help you win races.

RECRUITING CREW MEMBERS

After you defeat a rival crew boss or on certain other occasions, rival crews may offer to join your crew. Select MY CREW in the Safe House to review all your crew management options. Here you are able to read bios for each crew member and see what kind of skills and bonuses they would add to your crew if you hire them.

ROLES

The three types of wingmen—Blockers, Drafters, and Scouts—each have unique roles to help you win races. Blockers get in the way of other drivers to slow them down and throw them off their lines. Drafters give you a second of speed boost for every second you stay behind them. Scouts show you alternate paths around and through the race course.

SKILLS

Your crew members may also have certain skills to help you out along the way. Fixers prevent your heat level from increasing and give you a little extra cash when you win races. Mechanics provide discounts on performance parts and give you a nitrous or Speedbreaker boost in races. Fabricators allow you to unlock certain Autosculpt parts in the Customization menu and let you buy certain visual parts at a discount.

SAFE HOUSE MENU

World Map	Use the map to enter races and review how much territory you own. Each territory is owned by a rival crew, and has a target number of races you need to win before you unlock events against the crew boss. You need to beat the boss to take control of the territory.
Free Roam	Cruise around the city, enter races, outrun the cops, or accept a rival crew challenge in an open-world race.
Customization	Cash in your winnings to upgrade your cars with standard parts or use your imagination to create the car of your dreams with Autosculpt. Once you've picked out your parts, select SHOPPING CART to purchase and install them on your vehicle. Visit downloader.ea.com to download new cars and parts to use in Career mode and throughout the game.
Car Select	Choose any car you own for your next race. You can also sell your cars for cash here.
Crew	Hire and fire crew members, watch their bio videos, and view their cars. You can also personalize your crew logo.

CHALLENGE SERIES

Get behind the wheel and test your skills or see how you stack up against other drivers online. Work your way up to the Gold Medal events by taking home the Bronze and Silver medals. Beat the Gold events to unlock car parts and vinyls to use in your Career and Online. Circuit, Sprint, and Speedtrap events can be played in Co-op mode online.

RACE THE SHADOW CAR

The Shadow car is a recording that you can load and race against of any previous record on any track. You can also race the current online leader on virtually any track by selecting CURRENT LEADER'S SHADOW from the Shadow option.

Canyon Duel

Go head to head against a single opponent down a perilous canyon road. Keep on eye on the Duel meter in the upper right of your screen. If you fall behind for too long, you automatically lose.

Canyon Race

Take on three other drivers in a race to the bottom of a canyon.

Checkpoint

Reach certain checkpoints on the track before time expires to earn bonus time to finish the event.

Canyon Checkpoint

This is just like a regular Checkpoint event, only with the added dangers of the canyon.

Canyon Drift

Reach a target score to win this event. Earn points by drifting around corners—the longer the drift and the faster your speed, the more points you earn. Earn multipliers by maintaining a clean run and not hitting the walls.

Pursuit Evasion

Evade the police for the specified amount of time to earn a medal. The meter in the upper right of your screen shows how close you are to either getting busted or evading the pursuit, as well as how many cars are hunting you down. If you fill the Evade meter, you earn a cooldown period—the pursuit is over when the cooldown meter is full. However, if you are spotted again before the cooldown meter fills, the pursuit resumes.

Trade Paint

Avoid being busted by the police and take some of them out while you're at it. Ram into their cars to disable them.

Circuit

Race on traditional lap-based courses with barriers to help keep you on track.

Sprint

Drive as fast as you can in a point-to-point race.

Drift

Like the Canyon Drift, you need to reach a certain score to earn your medal by drifting around corners. You earn multipliers for linking drifts around multiple corners.

Speedtrap

Race through a number of speedtraps in a point-to-point race. The driver with the highest cumulative speed at the end of the race is the winner.

Race Wars

It's you against nineteen other drivers in a three-lap race.

PERFORMANCE TIPS

SYSTEM REQUIREMENTS

It is essential that your PC meets the Minimum Requirements as detailed on the game's packaging. If you are experiencing poor performance, check to make sure your system hardware supports the requirements.

BACKGROUND TASKS

In some cases programs that are running on your system can monopolize resources that the game needs in order to install, load, and run properly. Not all of these programs are immediately visible. There are a number of programs, called "background tasks," that are always running on your system.

IMPORTANT NOTE: While shutting down background tasks will optimize your system for running *Need for Speed Carbon Collector's Edition*, these background tasks' features will be unavailable once shut down. Be sure to re-enable background tasks after playing *Need for Speed Carbon Collector's Edition* by restarting your computer.

If your system is running anti-virus or crash guard programs you will need to close or disable them to run *Need for Speed Carbon Collector's Edition*. To do this, find the icon for the program on the Windows Taskbar and then right-click the icon and select "close," "disable," or the relevant option. Please note that these programs will be reactivated the next time you restart your computer.

Once anti-virus and crash guard programs have been disabled, you should end all unnecessary general background tasks.

To view and close background tasks (Windows XP):

1. Hold down **CONTROL** and **SHIFT** and then tap **F3**. Select the Windows Task Manager.
2. Click the **Processes** tab. This tab displays a list of all background tasks running on your system.
3. Click the **User Name** column heading. This sorts all the processes together by user name.
4. Select an item with a user name, but **DO NOT** select one from the **SYSTEM**, **LOCAL SERVICE**, or **NETWORK SERVICE** groups. Also, **DO NOT** select the *explorer.exe* or *taskmgr.exe* items.
5. Click **END PROCESS**. You may receive a warning message, if so click **YES**. The selected item disappears from the list.
6. Repeat steps 4 and 5 until only *explorer.exe* and *taskmgr.exe* remain in the user name group.

VIDEO AND SOUND DRIVERS

An outdated video or sound driver can lead to slow and choppy gameplay, or in some cases can prevent the game from running at all. To ensure an enjoyable experience with *Need for Speed Carbon Collector's Edition*, be sure that you have the most recent video and sound drivers installed. These drivers are typically available for download from your system or hardware manufacturer's website. If you are not sure what type of video or sound card you have, or you don't know how to update the drivers on your system, please refer to the documentation that came with your system or peripheral.

INTERNET PERFORMANCE ISSUES

To avoid poor performance during Internet play, be sure that you close any file sharing, streaming audio, or chat programs prior to entering gameplay. These applications can monopolize your connection's bandwidth, causing lag or other undesirable effects.

Need for Speed Carbon Collector's Edition uses the following TCP and UDP port(s) for Internet play:

TCP: 18210, 18215, 13505

UDP: (Outgoing) 18215, 20000–22000; (Incoming) 3658

Please consult your router or personal firewall documentation for information on how to allow game related traffic on these ports. If you are attempting to play on a corporate Internet connection, contact your network administrator.

NOTE: Port 1042 needs to be opened instead of 1000.
